

We'll find **\$20,000** your practice is losing this year — or you don't pay.

In 14 days, we go through your numbers and show you, in writing, at least \$20K you're losing to tax structure, overhead, and setup mistakes — with a step-by-step plan to capture it. Find less than that, and the review is free.

WHY THIS MONEY IS HIDING

You trained 10+ years to practise medicine and zero hours to run a corporation. In your first year independent, the money leaks quietly:

- **Incorporation & tax structure** — wrong CCPC timing, the “pay off debt before you incorporate” myth, and a poor salary/dividend mix routinely cost \$20K–\$50K a year.
- **Overhead you never priced** — franchise/management cuts, duplicated tools, and staffing you over-pay for.
- **You're flying blind** — no real-time view of your own P&L, so you find the leak 18 months too late.

“The amount of tax I'm paying is nauseating — the house I'd be living in would be double the size.” — independent surgeon, Ontario

WHAT YOU GET IN 14 DAYS

- A **line-by-line financial review** of your practice — structure, tax, and overhead.
- A written **“Money Found” report**: every dollar we identify, where it's leaking, and exactly how to capture it.
- A **90-minute walkthrough** with the founder — your numbers, your questions, your call.
- A **prioritized capture plan** you can act on with your accountant immediately — whether or not you continue with us.

Worst case, you get a free expert audit of your finances. Best case, we've already paid for ourselves 20× over.

THE GUARANTEE

We find at least CA\$20,000 you're losing this year, documented with a capture plan — or the \$1,000 PoC is fully refunded. No fine print, no “findings fees,” no obligation to continue.

What “find” means: money we **identify and document, with a clear step-by-step plan to capture it** (e.g. tax you're overpaying, overhead you're over-spending, structure costing you) — measured over a 12-month forward period. It does not require you to have already recovered the dollars; it requires us to prove they're there and show you how to get them.

Is this for you? The guarantee applies if you can say yes to all three:

1. You launched (or took over) your own practice in the **last 0–18 months**.
2. You bill **more than CA\$250,000 a year** through the practice.
3. You **haven't had a dedicated tax-structure & overhead review** since launching.

Not all three? We can still run the review at a flat fee — just without the \$20K guarantee, since the math depends on your stage and scale.
