

We'll find **\$20,000** your practice is losing — or you don't pay.

A 90-minute Revenue-Leak audit and a written Recovery Report within a week — exactly where your money is leaking and how to get it back. Find less than \$20K, and the review is free.

WHY THIS MONEY IS HIDING

You trained 10+ years to practise medicine and zero hours to run a business. In your first years independent, the money leaks quietly — and independent physicians lose **\$200,000+** before they see it:

- **Tax & entity structure** — wrong incorporation timing and a poor salary/dividend mix routinely cost tens of thousands a year.
- **Revenue you never collected** — the average practice has **1 in 9 claims denied** on first submission: 5–11% of everything you're owed, written off quietly.
- **Overhead you never priced** — franchise cuts, duplicated tools, staffing you over-pay for.

"The amount of tax I'm paying is nauseating — the house I'd be living in would be double the size." — independent surgeon, Ontario

HOW IT WORKS

STEP 1

Qualify

A quick fit check. 10 minutes.

STEP 2

The Audit

\$1,000 PoC. 90-min review + report in a week. Money-back.

STEP 3

Capture

We close the leaks with you. \$8,000 founding program.

STEP 4

Stay ahead

\$599/mo — ongoing clarity so it never leaks again.

THE GUARANTEE

We find at least \$20,000 you're losing, documented with a capture plan — or the \$1,000 PoC is fully refunded. No fine print, no findings fees, no obligation to continue. The only thing you risk is 90 minutes.

What "find" means: money we **identify and document, with a clear step-by-step plan to capture it** (tax you're overpaying, revenue you're not collecting, overhead you're over-spending) — measured over a 12-month forward period. It does not require you to have recovered the dollars yet; it requires us to prove they're there and show you how to get them.

Design partner? 2 seats open. Same \$1,000 money-back PoC — real money, because skin in the game keeps us both honest — plus the founding **\$8,000 Transition Program** (standard \$22,000), in exchange for weekly feedback and a testimonial once you see the recovery.
